## EDUCATION

<b>Vellore Institute of Technology</b>	Bhopal, Madhya Pradesh
Bachelor of Engineering in Computer Science, Cumulative GPA: 8.4/10	Expected May 2026
<b>St. Francis</b>	Dausa, Rajasthan
12th Standard, CBSE Percentage: 89%	July 2021

## SKILLS

- **Technical:** Python, Java, AWS, SQL, Gen AI, NLP, React.js, MongoDB, HTML, CSS, JavaScript, Blockchain, Data Analysis, Power BI, Linux, Git, GitHub.
- **Non-Technical:** Excel, Prompt Engineering, Data Visualization, Networking Skills, Collaboration & Teamwork

## PROJECTS

<b>AlchainX – Decentralized AI Model Marketplace on BlockDAG</b>	August 2025 – September 2025
Tools: Solidity, BlockDAG Testnet, ERC-1155, Chainlink, IPFS/Filecoin, Smart Contracts, AI/ML	
<ul style="list-style-type: none"><li>• Built a BlockDAG-based marketplace tokenizing 100+ AI/ML models into ERC-1155 assets with embedded licensing.</li><li>• Automated royalty payouts (100%) and usage quotas via smart contracts, reducing manual management by 90%.</li><li>• Integrated Chainlink Functions and IPFS/Filecoin for secure off-chain inference and decentralized model storage.</li><li>• Enabled dynamic pricing tied to model performance, boosting transparency and valuation accuracy by 40%.</li><li>• Supported Composable AI Stacks and Decentralized SLAs, enabling 1K+ secure AI executions across vision, NLP, and DeFi analytics.</li></ul>	

  

<b>Do Sakhi – AI-Powered Women Empowerment App</b>	January 2025 – March 2025
Tools: React.js, Tailwind CSS, Node.js, MongoDB, NLP, AI,	
<ul style="list-style-type: none"><li>• Built an AI-driven mobile app educating adolescent girls (10–18) on health, rights, and life skills in 2+ regional languages.</li><li>• Integrated an animated AI mentor with NLP voice recognition and offline multilingual access (<math>\leq</math> 512 Kbps).</li><li>• Developed a secure backend linking 30+ verified resources, including govt. schemes, NGOs, and legal aid links.</li><li>• Collected feedback from 50+ users across 2 rural schools to ensure inclusivity and local relevance.</li><li>• Added dialect-specific voice support and scaled the app to handle 50+ concurrent users.</li></ul>	

## CERTIFICATIONS

• AWS Certified Cloud Practitioner -AWS	October 2025
• IBM GEN AI Certificate -IBM	April 2025
• Data Analyst -Deloitte Virtual Internship	April 2025
• Supervised Machine Learning: Regression and Classification -Stanford University (Coursera)	August 2024

## ACHIEVEMENTS & ACTIVITIES

- Shortlisted for Adobe Hackathon 2025 Round 2 among 2,62,152 teams, with only 4000 teams advancing.
- Advanced to the final round in the Block DAG Hackathon 2025, demonstrating strong problem-solving and ideation skills.
- Secured advancement to Round 2 among 2000+ participants in Google Girl Hackathon 2023, ranking within the top 2.5% of female coders nationwide.
- Top 3 Finalist among 300+ participants, Fintech Club (VITB) – Pitched a business idea to Rakhi Pal (Shark Tank Finalist).
- Achieved 201st position among 3000+ participants in the Implementation Round of Myntra HackerRamp 2024, post successful completion of the Ideation Phase.

## EXTRACURRICULAR

<b>PR Lead, Android Club</b>	June 2023 – Present
<ul style="list-style-type: none"><li>• Led Android Dev campaigns; conducted 3+ Technical workshops with 300+ participants on Android fundamentals.</li><li>• Organised 10+ Android development events, coordinating communication across internal and external teams.</li></ul>	
<b>Social Media Lead, English Literary Association Club</b>	December 2023 – Present
<ul style="list-style-type: none"><li>• Managed the launch of the ELA Gazette 2024, increased reach by 30% via marketing and brand storytelling.</li></ul>
